## **Press Release No. 2**

**Alhamdulillah! We say „thank you“, „shukran“, „barakallahfeekom..**

Few days ago, we introduced our idea about constructing an intercultural center in Dresden bearing the name of our beloved Marwa, and now the message is already spread all over the world.

We experienced a great amount of compassion and support and were already able to spread our dream on many occasions and it was already spread by media, websites, and blogs around the world.

So, we decided to keep you informed.

### **Answering some frequently asked questions:**

- Yes, it is true, that our association was founded for the purpose of this objective and registered before Marwa's murder.
- She participated in our discussions, focused on the plan of an intercultural nursery, hoping that those, who know each other from childhood days, will never assail each other.
- Our association was founded basically as „common public interest“ (Gemeinnützigkeit), according to German and European law soon.

### **Current steps:**

- Picking up the generous offers of aid, especially made by the City of Dresden to achieve our goal.
- Kicking off for fundraising in cooperation with especially German and Egyptian media having already offered cooperation and assistance to us.
- Establishing website and constructing a communication system, e.g. by a new sletter and further press releases.

### **Next Steps:**

- An international scientific conference on Islamophobia, held in Dresden,
- Scholarship in the name of Marwa,
- A handball or football tournament

We really need your help to raise funds and commemorate Marwa - and you make it possible for the intercultural dialogue to help preventing another death like Marwa's.

The Board

Dresden, den 30.07.2009
